Method notes

- Each issued, non-revoked record is compared with the approved version and, for a SAMC, with the QV period on the issue date (KPI-05).
- Records checked (130) equal the 131 issued credentials less the 1 revoked, as in the credentials issued report.
- No MCE credential carries a credit claim, so Leadership Essentials is not listed.

Figures count only verified records. Reports that run over 10 seconds are produced in the background. This report is a prototype built from sample data.
